- Can be used for electrical motors, coil winding, electrical coils, transformers, thermal sensors, fax machines, lighting devices, appliances, electronic devices, heaters, thermal protectors, printers, copiers, and switchboards.
- Irradiated cross-linked polymeric insulation possesses remarkable mechanical, flame resistance, and electrical properties.
- It is compatible with many types of magnet wire and varnishes at bake temperatures up to 190C and processes extremely well on the latest high speed cut and strip machines.
- This product has unusually high chemical resistance including many potting compounds, toners, and solvents.
- We can stripe, print, or respool to your customized specifications.
- Buy standard put-ups or multiples of standard put-ups for quicker delivery.
