*Per table 400-5 (A) of the NEC.

- All sizes are fillerless except the 18/2 conductor which has polypropylene fillers as required by UL.
- Indent Print Legend
- Can be used for portable power use when a thermoplastic cord is needed with greater flexibility and resistance to oils, lubricants, and grease. For use in machine shops, mills, garages, aircraft maintenance facilities, machine tools, portable power equipment, portable appliances, mixers, washing machines and polishers. A tough PVC jacket offers superior physical properties and extended service life.
- Standard 2 conductor color code is black, white.
- Standard 3 conductor color code is black, white, green.
- Standard 4 conductor color code is black, white, red, green.
- Stocked with black or white outer jacket. Consult your salesperson for other constructions and jacket colors.
