- P/N TRC12/4-10/2-8/1 is normally stocked with a green PVC jacket. SAE also approves this cable as ABS compliant due to the flexible stranding and the presence of two 10 AWG conductors.
- Can be used for automotive trailers, trucks or applications with good resistance to weather, oil and grease
- Trailer cable inner conductors are stranded copper and color-coded for identification purposes with a PVC jacket.
- TPE can be substituted for PVC in extremely low temperature applications.
- Trailer cable specifications can vary. Please contact your salesperson for any constructions not shown.
