- Normal color code is red, white, black, brown, green, yellow, blue.
- Can be used for automotive trailers, trucks or applications with good resistance to weather, oil and grease.
- Trailer cable inner conductors are stranded copper and color coded for identification purposes with a Thermoplastic Elastomer (TPE) jacket.
- Stranding, insulation thickness, jacket thickness and color code can vary.
- Trailer cable specifications can vary. Please contact your salesperson for any constructions not shown.
